NAVIGATOR COLLEGE TO BUILD HEALTH & WELLBEING CENTRE IN 2017

The College is extremely excited to be able to report that progress has been made on the Health and Wellbeing Centre, and construction will begin in 2017.

Recently, architect Tim Geue and Principal, Kaye Mathwin-Cox, met to consider the plans for the Centre as part of a 2-3 stage process that includes a 2 court basketball space (competition size), 2 classrooms, a Gym, change-rooms, toilets and canteen.

This building will also be a welcome addition to enable whole school gatherings in a large, open space.

The College Council has been briefed and they have discussed the plans. Shown here are the first released Artist Impressions of the Health and Wellbeing Centre. Further floor plans are on display in the Foyer of the Administration Building.

Play Pod in action at lunch time.

FROM THE JUNIOR SCHOOL *Stephen Jude*

A good foundation is the key to a successful structure in the construction industry. Without a solid foundation it doesn't matter the quality of the building that sits on the foundations, the building will collapse. The same can be said about establishing a solid foundation for learning in the classroom.

Our Junior School teachers have been working collaboratively with their students to develop some excellent foundations for success. The foundation stones of respect, communication, safety and learning have been explored and essential agreements constructed in order to ensure there is a solid foundation for success. Ask your students about these four foundations and seek them out in the classroom. It's been a fabulous start and we look forward to the quality building to come, and celebrating the process of construction.

YEAR ONE'S SORT AND CLASSIFY

The Year Ones have been inquiring into sorting and classifying as part of their Mathematics Unit on patterning.

They have been sorting a range of different materials including bottle tops, rocks, rubber bands, bread tags, pop sticks, cookie cutters, counters, stamps and more! They were set on a challenge to sort materials in a challenging way and went on a 'sorting mission' to detect the ways that the other groups had sorted.

Some of the ways they sorted were by colour, shape, size, height, number, object and more! They inquired into why things are sorted in the world that we live in and how it benefits our everyday life. Here are some photos of their sorting activities.

PREFECTS TRAVEL TO ADELAIDE TO REPRESENT COLLEGE

The College Prefects travelled to Adelaide on two separate occasions within the last week to represent Navigator College, in their role as Prefects.

On Sunday the 28th they attended the AISSA (Association of Independent Schools of South Australia) Commencement Service which was led by Pulteney Grammar School, conducted in Pulteney Grammar School Chapel. The service celebrated the opening of the school year and confirmed the strength of collegiality between school communities within the Independent sector.

The Prefects were also invited to the LSA (Lutheran Schools Association) Student Leader's Day hosted by Endeavour College, in Adelaide today, Tuesday, the 1st of March. During today the focus will be on teamwork and will involve the students in a variety of activities informing them of leadership qualities across our Lutheran School sector.

These events are a wonderful opportunity for our Prefects to attend, where they are able to share fellowship and make connections with Student Leaders from other Lutheran Schools in South Australia.

NAVIGATOR COLLEGE

IMPORTANT DATES

Tuesday 1st March
Year 11 Service Learning Parent Information Night 7pm
